BIOTECHNICAL PLOT IN MESA GEITONIA - 1209M²

OVERVIEW

Limassol, Mesa Geitonia

Development Land

1438

DESCRIPTION

A very good shaped industrial (Bδ4-biotechnical zone) plot, located perfectly close to the main road towards the high-way access. Furthermore, the plot is leveled at the height of the road, so no earthworks will be needed during the development of the plot. The building zone there allows for a building density of 80% and a coverage density of 60%, an ideal combination that allows this industrial plot to be used in many ways.
