ОПИСАНИЕ

The villa takes the form of a minimalistic structure placed within a privileged plot of land at the top of a hill within the forest's natural landscape. Designed by a leading architecture firm, this villa enjoys contemporary architectural design aesthetics. The spatial configuration of the villa invites a variety of personalities and occupants, from hermetic individuals to sociable couples or groups, to be "original" and invent their own way of habitation in its structure. Composed of three simple individual rectangular volumes, slightly shifted and vertically stacked at three levels, following the hills' nature slope, the villa engages the landscape and the pleasures of being in the country by opening up in the woods towards south were at the same time, its strict street façade allows a private living.
